COMPONENT 'K' NARRATIVE

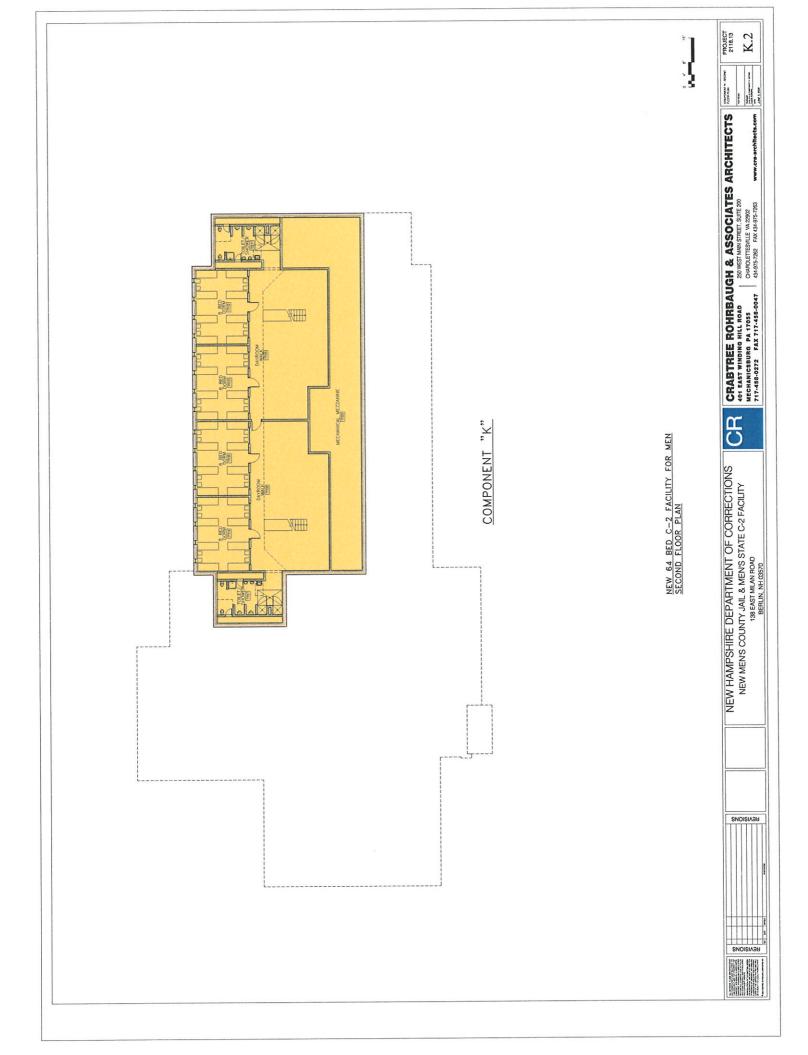

SUMMARY OF OPTIONS - NEW 64 BED C-2 HOUSING AT N.N.H.C.F

A component of this Comprehensive Master Plan study was to address the states necessary C-2 inmate population for work detail assignments at the Northern New Hampshire Correctional Facility (N.N.H.C.F). There is a current need of approximately 50 C-2 work detail inmates which are currently being housed within the existing facility in beds originally constructed and appropriate for C-4 inmates in their Administrative Segregation Unit. Constructing a new, more appropriate facility for this need would free up hard cell space at the N.N.H.C.F to address higher security bed needs throughout the department rather than build additional, more expensive hard cell bed space.

Component 'K' of this Comprehensive Master Plan address the needs for the States C-2 population at N.N.H.C.F. and is a stand alone facility vs. the previously summarized Component 'F' which is proposed to be attached to Component 'E' to handle the inmate housing needs of Coos County. Component 'K' would be in lieu of Component 'F' if Coos County does not proceed with this proposal. Component 'K' differs significantly in layout from Component 'F', primarily due to its stand alone configuration and due to there being no shared infrastructure or support facilities such as the Laundry or the Kitchen, as well as Mechanical, Electrical or Maintenance. Under this recommendation, the existing Administrative Segregation Unit within the main facility would revert back to higher security housing.

STAFFING ANALYSIS

This Staffing Analysis is based upon the following assumptions:

Each shift is 40 hours per week or 2080 hours per year

Vacations, Holidays and Sick Leave result in 57.75 days or 706 hours of lost productivity per year. Therefore each Employee can provide

1618 hours per year of time on a post.

The total number of employees required to staff a single 7 day - 3 shift relief position is 8736/1618= 5.4

The total number of employees required to staff a single 7 day - 1 shift relief position is 2912/1618 = 1.8

The total number of employees required to staff a single 5 day - 1 shift non-relief position is 2080/1618 = 1.3

The total number of employees required to staff a single 5 day - 1 shift non-relief position is
